ABCD4ME-APPS BASED COMPETENCE DEVELOPMENT FOR MIGRANTS ENTREPRENEURSHIP

2021-1-BE01-K220-VET-000033048

INTRODUCTION

In celebrating the accomplishments of the ABCD4ME project, we proudly announce the completion of project products for deployment. Over the course of our journey, spanning months of dedicated effort and collaboration, we have embarked on a mission to empower migrants through digital entrepreneurship. Today, we are delighted to present the culmination of our endeavors – a comprehensive array of project results that underscore our commitment to fostering economic integration, skills development, and opportunity creation in the digital age. From the establishment of an online digital database to the development of a pedagogical handbook, each outcome represents a milestone in our collective pursuit of social inclusion and prosperity.

We proudly present the completion of all our project products:

1. Online Digital Database for Migrant Entrepreneurship in a Digital Economy:

One of our key achievements is the development of an extensive online digital database tailored specifically for migrant entrepreneurs. This comprehensive resource serves as a repository of information, tools, and guidance to facilitate the establishment and growth of digital businesses. It provides invaluable support to migrants seeking to navigate the complexities of entrepreneurship in the digital age.

Digital Database

2. Theoretical Framework, Pedagogical Basis, and Training Curriculum:

Our project has also yielded a robust theoretical framework, pedagogical basis, and training curriculum designed to enhance the digital competencies of migrant entrepreneurs. Drawing upon the European Qualifications Framework (EQF) Level 4, our curriculum offers structured learning pathways that address the unique needs and challenges faced by migrants in the entrepreneurial landscape. Through innovative teaching methodologies and educational content, we have paved the way for effective skills development and capacity building.

Training Curriculum

3. Digital Training Platform for Learning via Apps:

In line with our objectives, we have successfully established a digital training platform dedicated to learning via apps for migrant entrepreneurs. This dynamic platform harnesses the power of technology to deliver interactive and engaging learning experiences. By leveraging educational apps, migrants can acquire essential entrepreneurial skills in a flexible and accessible manner, thereby empowering them to seize opportunities in the digital economy.

Digital Platform

4. ABCD4ME Pedagogical Handbook:

Finally, we are pleased to announce the creation of the ABCD4ME Pedagogical Handbook, a comprehensive guidebook aimed at facilitating the transferability of project outcomes within the European context. This handbook encapsulates our methodologies, best practices, and lessons learned, serving as a valuable resource for VET teachers, educators, and stakeholders involved in migrant entrepreneurship education.

Pedagogical Handbook

In closing,
The ABCD4ME project stands as a testament to the transformative potential of digital entrepreneurship in fostering social inclusion and economic integration. Through collaborative efforts and innovative initiatives, we have paved the way for migrants to realize their entrepreneurial aspirations and contribute meaningfully to the digital economy. As we reflect on our journey, we extend our gratitude to all project partners, stakeholders, and participants for their unwavering support and dedication.

WHAT IS NEXT?
- In our last transnational project meeting in Dublin, partners came together to celebrate the successful completion of the project and acknowledge the contributions of all involved stakeholders. We plan to continue our dissemination activities to share project results, findings and best practices with relevant stakeholders including policy makers, practitioners and the wider community!
- As we are in the closing month of our project, we are finalising our pilot implementation activities and multiplier conferences.
- Project partnership prioritises adaptation and ongoing development to maintain the sustainability and relevance of ABCD4ME results after the end of project lifetime. You can send us your ideas and feedback at any time so that we can effectively respond to changing demands and problems in the field of migrant entrepreneurship.
